

RITE NOW @ ROP

Sierra Ridge Academy (SRA) students recently celebrated a major milestone which marked their transition into young adulthood--high school graduation. For these twelve young men, earning a high school diploma marks a significant accomplishment that will help them pursue a higher education and build bright futures for themselves and their families.

Leading up to the Graduation ceremony, Sierra Ridge staff planned a week of special "normalized" activities for the Senior Class including the Senior Trip to Raging Waters theme park, a Senior "Ditch" Day that featured a water slide, scavenger hunt and water balloon fight, and culminated with a Graduation Party where students made memory boards to commemorate their time at SRA. On the day of the Graduation Ceremony, SRA's auditorium was filled with the supportive presence of over 200 people which included family members, staff, POs and the entire student body. Student speaker Spencer B. addressed his peers, leaving them with the inspirational message to "focus on the future and what comes next."

We are so proud of our twelve Sierra Ridge graduates who are all enrolled in college for the Fall semester and we wish them luck as they begin this exciting new chapter of their lives.
