

RITE NOW @ ROP

Sierra Ridge Academy's Board of Directors play an integral role in providing quality programming and unique opportunities for the youth in our care. Through engagement with the students and regular visits to the campus, Board members ensure that we are successfully achieving our mission of improving the lives of youth, families and communities.

During a recent visit to Sierra Ridge Academy, Board members were treated to a student-guided tour of the campus where they observed the program elements in action. As the students led our guests through the sprawling 263-acre campus, they shared their experiences at Sierra Ridge and gave passionate speeches about overcoming their challenges and planning for a bright future. The board members were impressed by our students, their professional presentation and their remarkable character and motivation.

To show our gratitude for the support provided by our Board of Directors, the student guides presented each member with a uniquely designed tee shirt that they created in their Graphic Arts class.
